

## **Environmental & Toxics**

Our Environmental Law attorneys provide a wide range of counseling and litigation services related to environmental compliance and liability.

D & M attorneys are experienced in helping our clients develop and maintain compliance programs and respond successfully to environmental crises. This group has substantial litigation experience including class actions and mass consolidations related to air and water pollution, hazardous materials, toxic substances, involving asbestos, lead and proprietary chemicals, and California's Safe Drinking Water and Toxic Enforcement Act (Proposition 65). Our advisory and litigation experience include:

Litigation defense of administrative, civil and criminal environmental enforcement claims brought by federal and state agencies

Proposition 65 litigation and counseling.

Analysis of insurance-related problems and pursuit of insurance claims and coverage.

Contract negotiations in environmentally sensitive real estate, industrial, and commercial transactions

Coordinate litigation defense in complex multi-defendant matters, class actions, and simultaneous proceedings

Development of comprehensive compliance programs

Environmental compliance assessments and audits

Production process and property acquisition risk assessment

Regulatory interpretation and compliance advice

Represent private parties in litigation on a broad range of contractual and real estate claims

Our Environmental Law attorneys regularly engage in negotiations, mediations, arbitrations, trials, and appeals and has the skill, experience, resources, judgment, and work ethic necessary to effectively and efficiently resolve complex environmental disputes through settlement, dispositive motions in advance of trial, to a trial verdict, and or appeal if necessary.
